ABSTRACT

Data on the State University System (SUS) of Florida are presented in the form of tabular displays, charts, graphs, and a glossary. Preliminary sections list members of the State Board of Education and the Florida Board of Regents, provide a description of the State University System of Florida, and list measures used for reporting Florida university quality. The 10 major sections cover the following areas: (1) institutional characteristics (e.g., energy characteristics SUS and university facilities by categories used in capital outlay budgeting); (2) admissions (e.g., community college students transferring into the SUS); (3) enrollment (e.g. headcount trends 1976-1984, and headcount by citizenship; (4) degree programs; (5) student finance (e.g., required fees per year for medical programs and SUS fee waiver summary 1985-86); (6) institution finance (e.g., funds appropriated for quality improvement programs by university 1979-80 through 1985-86); (7) contracts and grants (e.g., total contracts and grants dollars expended by university 1984-85 and research and service contracts and grants expenditures by discipline fiscal year 1984-85; (8) personnel (e.g., percent and number of SUS personnel by classification, sex, and race 1984-85 and number of ranked faculty by age distribution and tenure status 1984-85); (9) functional directory by responsibility; and (10) a glossary of about 50 terms and abbreviations. FOREWORD

FACT BOOK 1984-85 is designed to provide timely, accurate and comparative data about the State University System of Florida. It is intended for use by individuals interested in higher education in Florida. Our primary goal is to present summary information in a form which is easy to understand. Information is provided in the form of tabular displays, charts, graphs and a glossary of terms and abbreviations.

Data in the FACT BOOK were gathered from a variety of sources. The primary source documents were the State University System Data Tapes, the Higher Education General Information Survey Reports (HEGIS), annual financial statements, operating budgets, and reports required by the United States Office for Civil Rights.

Prior to republication of portions of this document or use of its data in policy development or analysis, we recommend you contact our staff to ensure that you receive any post-publication changes. In order to help this communication, we have placed the initials of the Board of Regents Office responsible for the data presented in the lower left corner of each table or figure. The initials are expanded in the glossary. In addition, a directory of Board of Regents Staff by responsibility has been included.

STATE UNIVERSITY SYSTEM OF FLORIDA

The State University System (SUS) was established formally in 1905 when the legislature passed the Buckman, Act which consolidated the various post high school institutions into three under a Board of Control. After consolidation, the System consisted of the University of the State of Florida in Gainesville, and Florida A&M College and Florida State College for Women in Tallahassee. As the desire for an education continued to grow throughout the state and students demanded advanced instruction within commuting distance of their home, the urban areas started to compete for degree-granting institutions. By 1963, University of South Florida in Tampa was operating, Florida Atlantic University in Boca Raton was on the drawing board, and two more institutions, one in Pensacola and one in Orlando, were authorized. In order to enhance coordination of this growing system, the Florida Legislature established the Board of Regents as the single governing board of the state supported universities.

As originally established in 1965, the Board of Regents consisted of nine members; by 1984-85, however, that number had increased to thirteen. The membership included eleven representatives from various geographical areas of the state, who were appointed by the Governor for six-year terms, a student Regent appointed for a one-year term, and the Commissioner of Education. Chief administrative officer of the Board of Regents is the Chancellor. The Board and Chancellor were supported by an office which is structured according to major functional areas: Office of the Chancellor which included Equal Opportunity Programs, Internal Management Auditing, General Counsel, and Corporate Secretary; Academic Programs, which included program review and academic planning; Administration and Support, which included information resource management, business and financial operations, construction administration, and personnel programs and labor relations; an Office of Budgets.

By statute the Board of Regents is involved primarily in selection of university presidents and policy making--its responsibilities include adoption of Systemwide rules and policies, planning for the future needs of the SUS, evaluation and coordination of program development, to name a few. Responsibility for the operation of each institution is delegated to the universities. In the state organizational structure, the Board of Regents is placed under the State Board of Education as "the Division of Universities." Thus, the State Board of Education is charged with the responsibility of approving or disapproving all rules adopted by the Regents and adopting and transmitting to the Governor the SUS Legislative Budget Request.

Today the University System consists of nine universities which are placed throughout the state: in Gainesville, the University of Florida; in Tallahassee, Florida A&M University and Florida State University; in Tampa, the University of South Florida; in Boca Raton, Florida Atlantic University; in Pensacola, the University of West Florida; in Orlando, the University of Central Florida; in Jacksonville, the University of North Florida; in Miami, Florida International University. There are twelve off-campus centers located throughout the state. Also, the University of Florida Institute of Food and Agricultural Science (IFAS) administers seven agricultural research and education centers in addition to 69 county cooperative extension programs. The University of Florida and the University of South Florida have medical schools. UF provides internship and residency programs on campus at Shands Teaching Hospital. USF is expanding its program to include a Cancer Center and Shrine Hospital.

Many important events occured in 1984-85. The Florida A & M University concluded its national search for a new president with the selection of Frederick Humphries. The Board Office was reorganized to include an office of Health Affairs and an office of Public Affairs. Dr. Pat Barrett and Dr. William Shade were appointed as Vice Chancellors of these new offices respectively. The FAMU/FSU College of Engineering was established. Academic Program reviews of Law, Parks and Recreation, Math, Physical Science, and Education were conducted. The State University System continues to be involved in one of the highest funded capital construction programs in the nation. With commitments to establish 61 endowed chairs throughout the system, in addition to 34 fully funded chairs, the State University System Eminent Scholars Program is one of the most significant and innovative programs for achieving excellence in public higher education.

CONCEPTS FOR REPORTING FLORIDA'S PROGRESS TOWARD EXCELLENCE IN EDUCATION IN UNIVERSITIES

In January 1981, the State Board of Education adopted the following resolution:

> On a statewide average, educational achievements in the State of Florida will equal that of the upper quartile of states within five years, as indicated by commonly accepted criteria of attainment.

There are many dimensions to the quality of service rendered by our universities. The Board of Regents formally adopted indicators to be used as criteria for determining the State University System's progress.

Upper Quartile Measures for Comparisons With Other States

- Appropriations per headcount student.
- Average full-time faculty salaries by rank.
- Full-time scientists and engineers employed at public universities, number.
- National Merit Scholars, number.
- Research library rank.
- National rank of program, school or college, where existing.
- State financial aid per student.
- Strengthening undergraduate education.

Foundational Measures for Determining Progress Within The State University System

- Education value added as measured by CLAST scores.
- Endowed chairs, number.
- Graduate Record Examination scores.
- Percent of full-time faculty by highest earned degree.
- Progress toward student goals of the State Plan for Equal Access and Equal Opportunity.
- Specialized or programmatic accreditation.
- Student/faculty ratios.
- Student follow-up studies, findings (placement and performance).
- Contracts and grants per faculty member.

The State Board of Education concurred with these measures and added the following additional indicators.

- Admissions tests scores of students enrolling for the first time.
- Average full-time faculty salaries.

- Licensure examination results of graduates.
- Progress toward the faculty and administrator goals of the State Plan for Equal Access and Equal Opportunity.

NOTE: The first annual report of State University System (SUS) and national data concerning the above measures, covering the 1981-82 academic year, was submitted to the State Board of Education (SBE) early in 1984. This first report serves as a baseline to determine subsequent progress toward the SUS's upper quartile and quality improvement goals. During 1985 the Board of Regents staff gathered 1983-84 SUS and national data for incorporation into the third annual report of progress toward increasing quality. When the third annual report (1983-84) was compared to the 1982-83 report, evidence of quality improvement was found for the following measures; the findings of follow-up studies (placement and performance) of State University System graduates, the average full-time faculty salaries, the percent of full-time faculty by highest earned degree, the number of endowed chairs, the number of scientists and engineers employed at public universities, specialized or programmatic accreditation, student FTE/faculty FTE ratios, the progress toward the faculty and administrator goals of the state plan for equal access and equal opportunity, and the amount of contract and grant dollars per faculty member.

During 1986 the BOR staff will gather comparison data from the 1984-85 academic year for the fourth annual report on quality improvement.

[1] Approved by the Board of Regents November 30, 1979

[2] The University of Florida and Florida State University are responsible for providing programs and services on their respective campuses and in their local communities. Further, they are responsible for providing, on a statewide basis, such programs and services which cannot be provided by the other State University System institutions. The activities of the cooperative extension service are the responsibility of the Institute of Food and Agricultural Sciences of the University of Florida without regard to the geographical area in which those activities occur.

[3] By agreement between the Presidents of USF and FAU and the Superintendent of the Hendry County Public School System.

[2] These students do not pay tuition, are admitted on a space-available basis, and generate no funding for the State University System institutions.

[3] Although SUS Faculty and Staff Fee Waivers were in effect before 1976-77, data on the number of them is not available in the earlier years.

[4] Non-SUS State Employee Fee Waivers went into effect Fall, 1979.

[5] Senior Citizen Fee Waivers went into effect Fall, 1980.

NOTE: Figures have been rounded to the nearest whole number.

SOURCE: Data for 1975-76 and 1976-77 was obtained from Florida's 10-year Summary of Appropriation Data, Department of Administration, Division of Budget, Volume 2, September, 1978. Data for 1977-78 through 1984-85 was obtained from the Student Data Course File Enrollment Reports.

[4] Salary increases and other separate appropriations are included.

[5] For the year 1979-80 and 1980-81 there were numerous additional appropriations and transfers made after the Appropriations Bill was approved by the Governor. To more accurately show appropriations for these two years, figures were taken from the Governor's Appropriation Ledgers dated June 30, 1980 and August 31, 1980 respectively. Some of the 1980-81 figures have been revised to reflect changes made after 1979-80 FACT BOOK was printed.

[6] A number of Administered Funds programs have been transferred to the Department of Education.

[7] Appropriation for 1981-82 as of June 30, 1982, Governor's Appropriation Ledger updated from 1980-81 FACT BOOK to include full salary adjustments mandatory reserves and additional appropriations made throughout the year.

[8] Includes a $5.2 million appropriation for Eminent Scholars.

[9] Includes $2,730,000 New College Endowment Trust Fund.

[10] Includes mandatory reserves of $18,720,920. Source: December 31, 1982, Governor's Appropriation Ledger.

[11] Includes $2,000,000 New College Endowment Trust Fund.

[12] Includes the Community Hospital Education Program, the First Accredited Medical School, Regional Education, and the Southeastern College of Osteopathic Medicine, all transferred from DOE to the Regents' Office in 1985-86.

NOTE: Auxiliary enterprises are exluded from this table.

[1] Excludes price level and salary increases on the $2 million provided in 1978-79.

[2] Excludes annualization, price level and salary increases on all funds previously provided for quality improvement.

[3] Excludes annualization, price level and salary increases on supplemental funds provided in all previous years. Also excludes $3,000,000 earmarked for Engineering Programs. This appropriation is included on a separate chart detailing Legislative appropriations for Engineering enhancements.

[4] Excludes $80,000 of 1981-82 funds at UNF.

[5] Excludes annualization, price level and salary increases on funds provided in previous years.

[6] Includes $12,000,000 for enhancing E&G University Support and $1,000,000 Law School Quality Improvement at UF and FSU.

[7] Includes $1,000,000 Law School Quality Improvement at UF and FSU.

NOTE: In the first year of the quality improvement plans, specific programs were identified by the institutions and approved by the Board of Regents to receive the $2,000,000 supplemental funding to become "Centers for Excellence." In subsequent years, the title was changed by the Legislature and the universities have continued to allocate additional funds to those programs from new quality improvement dollars. Allocated amounts for 1978-79 were as follows: UF-$500,000; FSU-$400,000; FAMU-$100,000; USF-$375,000; FAU-$100,000; UWF-$100,000; UCF-$175,000; FIU-$175,000; UNF-$75,000.
